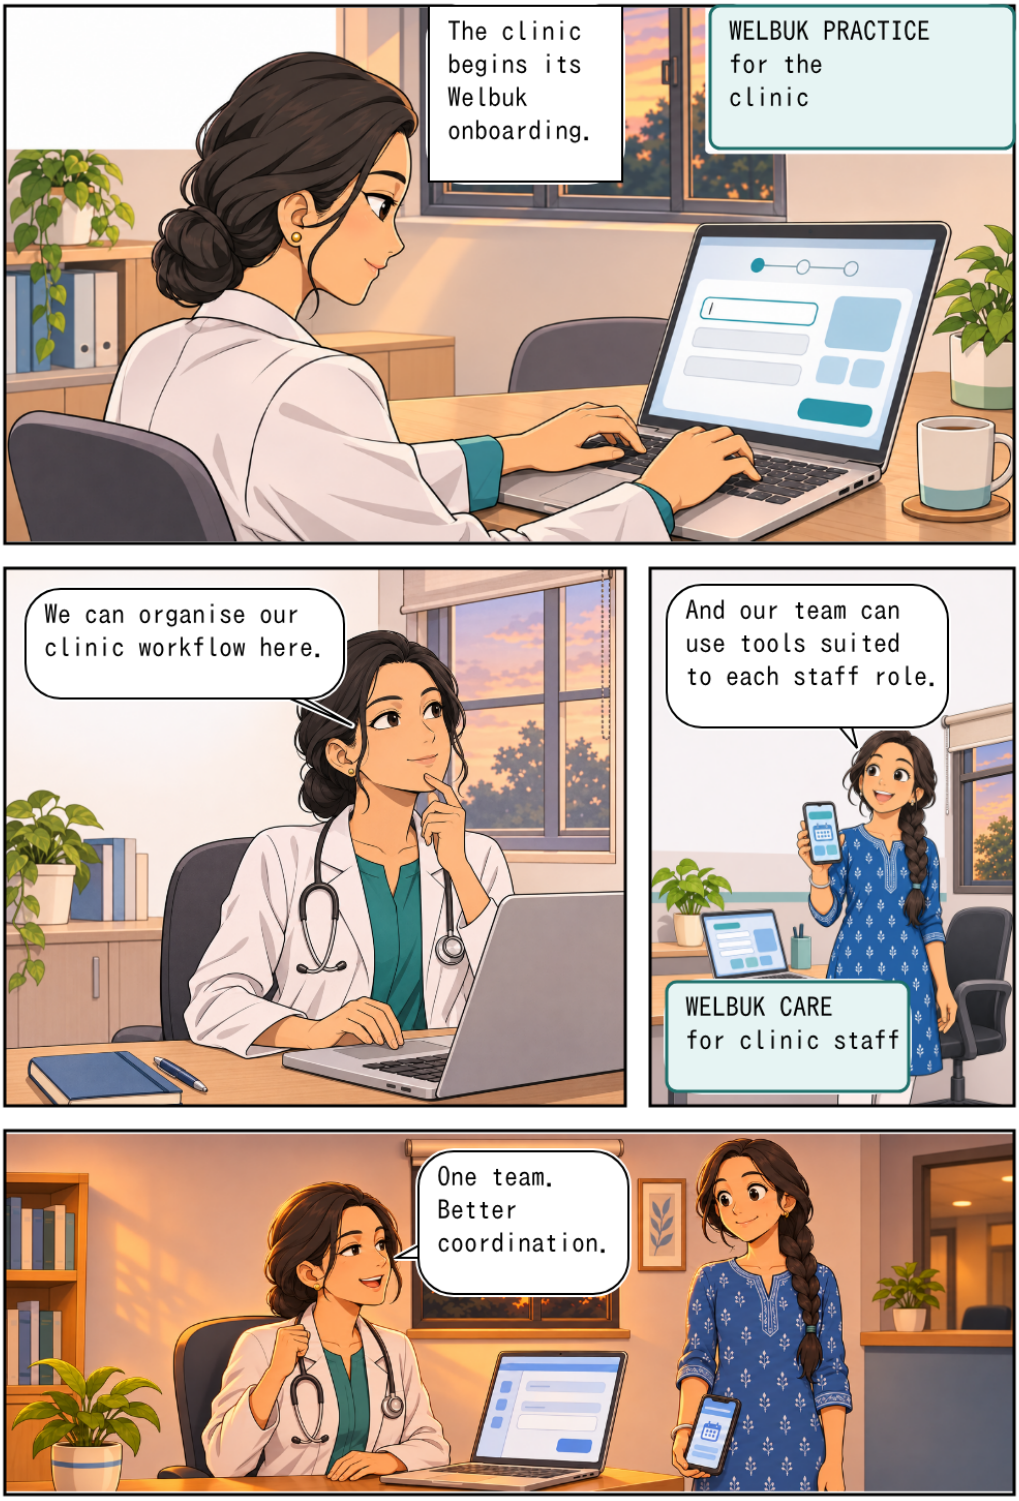
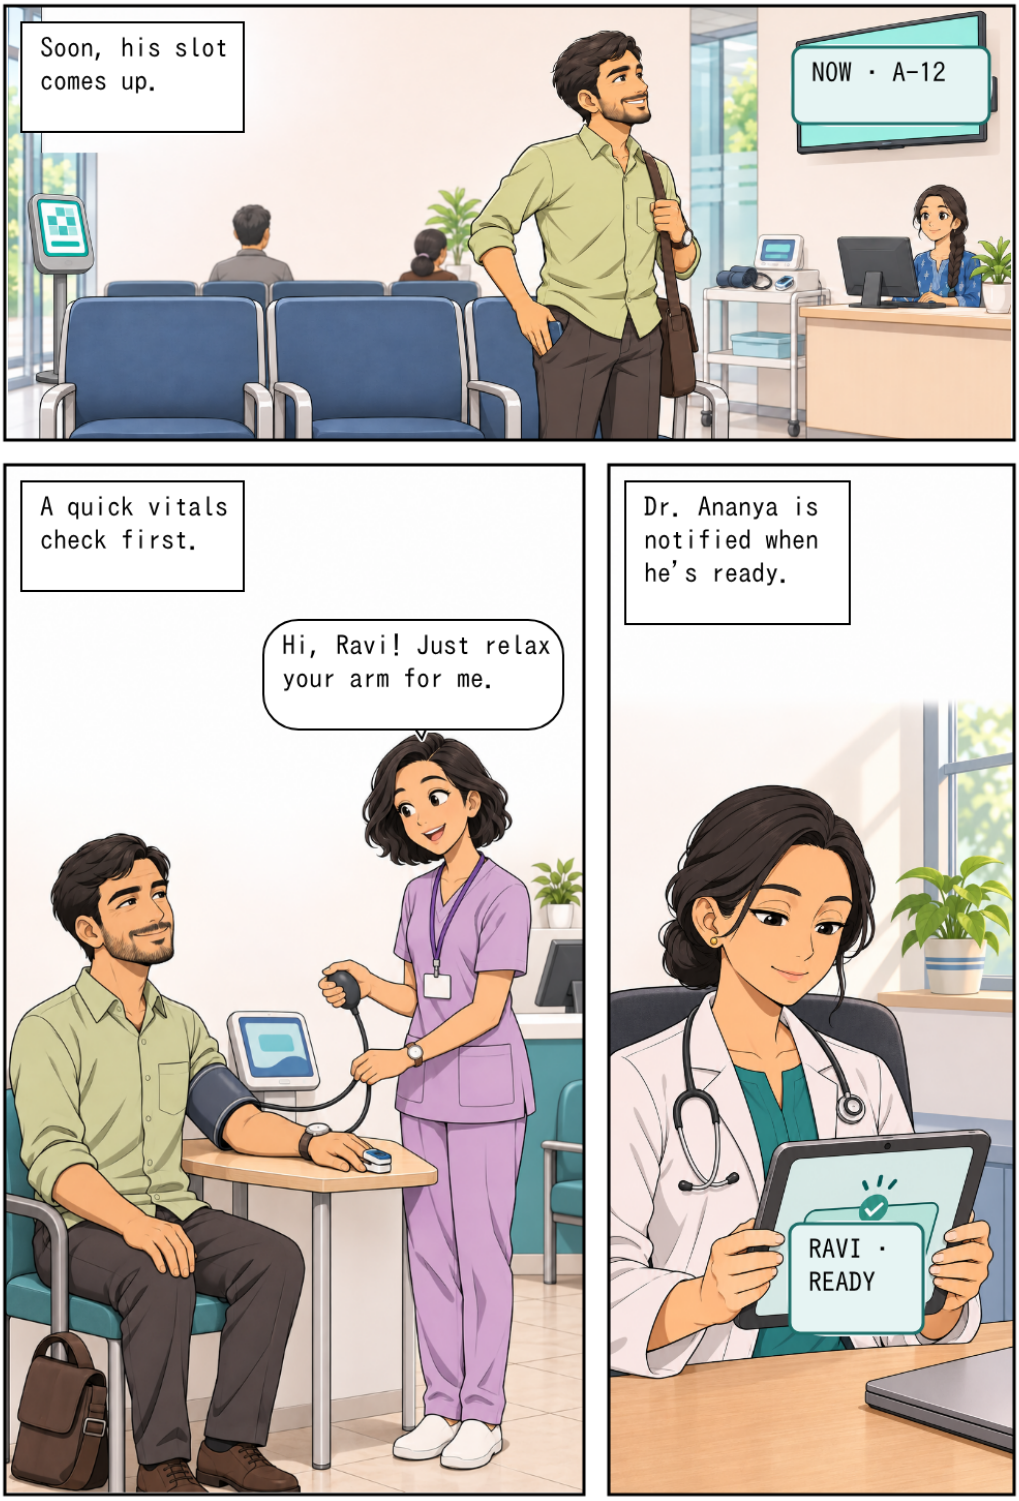
A busy day at Dr. Ananya's clinic.
Appointments, patient details, follow-ups...
I wish everything were easier to manage!
Our time belongs with patients. Let's make the rest simpler.

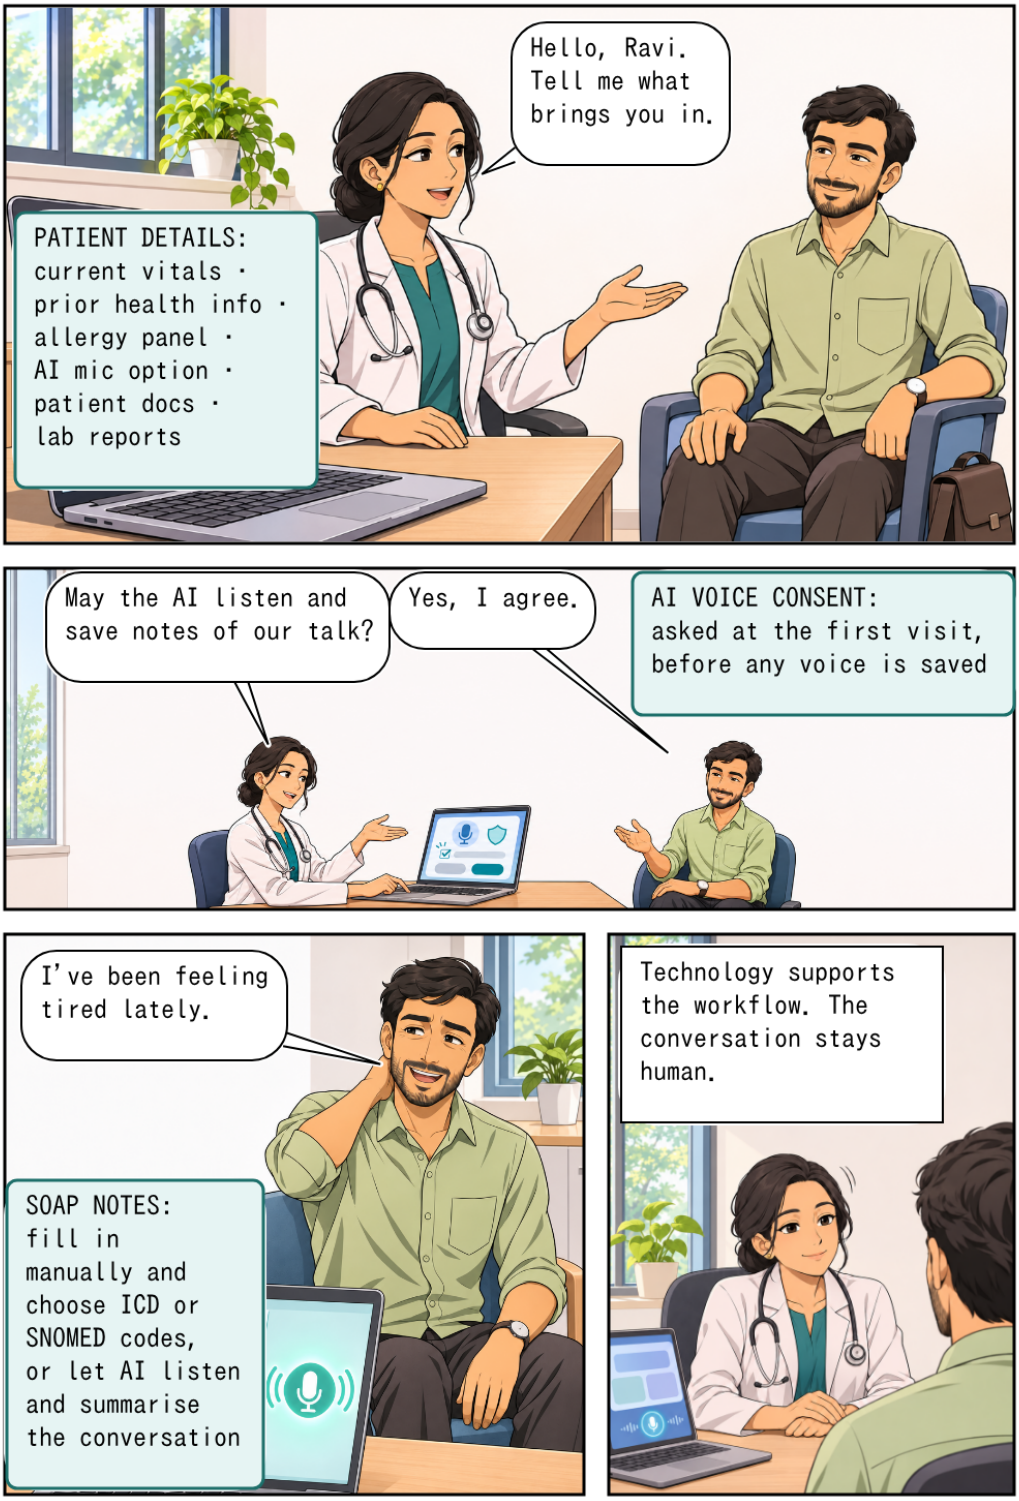


The clinic begins its Welbuk onboarding.
WELBUK PRACTICE for the clinic
We can organise our clinic workflow here.
And our team can use tools suited to each staff role.
WELBUK CARE for clinic staff
One team. Better coordination.

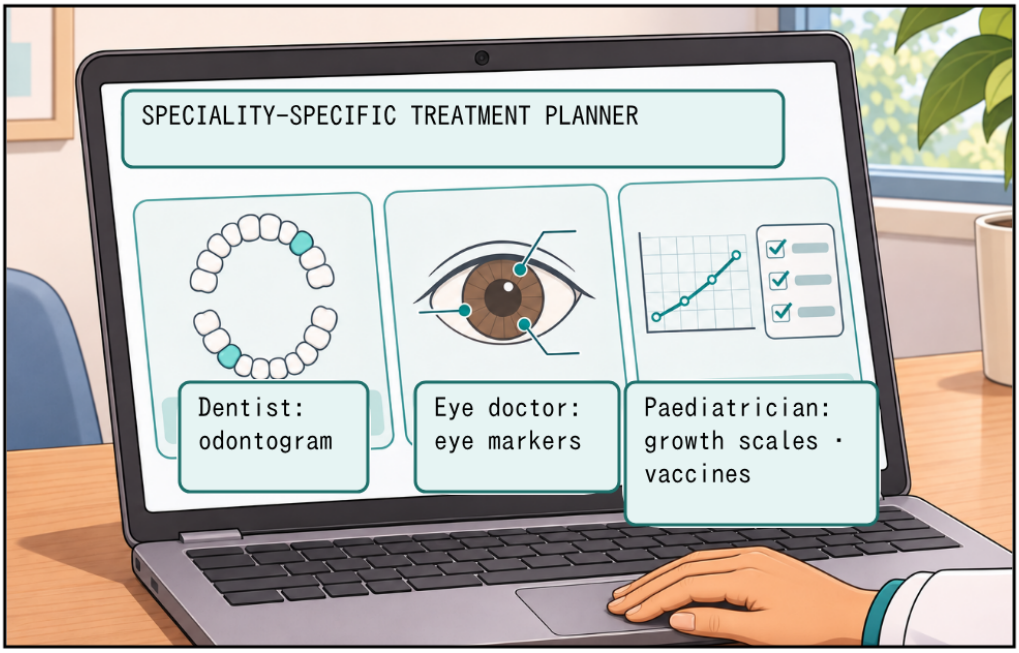
A later morning: patients can always check in at the front desk.
Some check in ahead on the Welbuk Health app.
Ravi scans the QR code at the door.
A short form on his own phone, shared with consent.
Every check-in gets a slot on the screen.
A-10 · A-11 · A-12



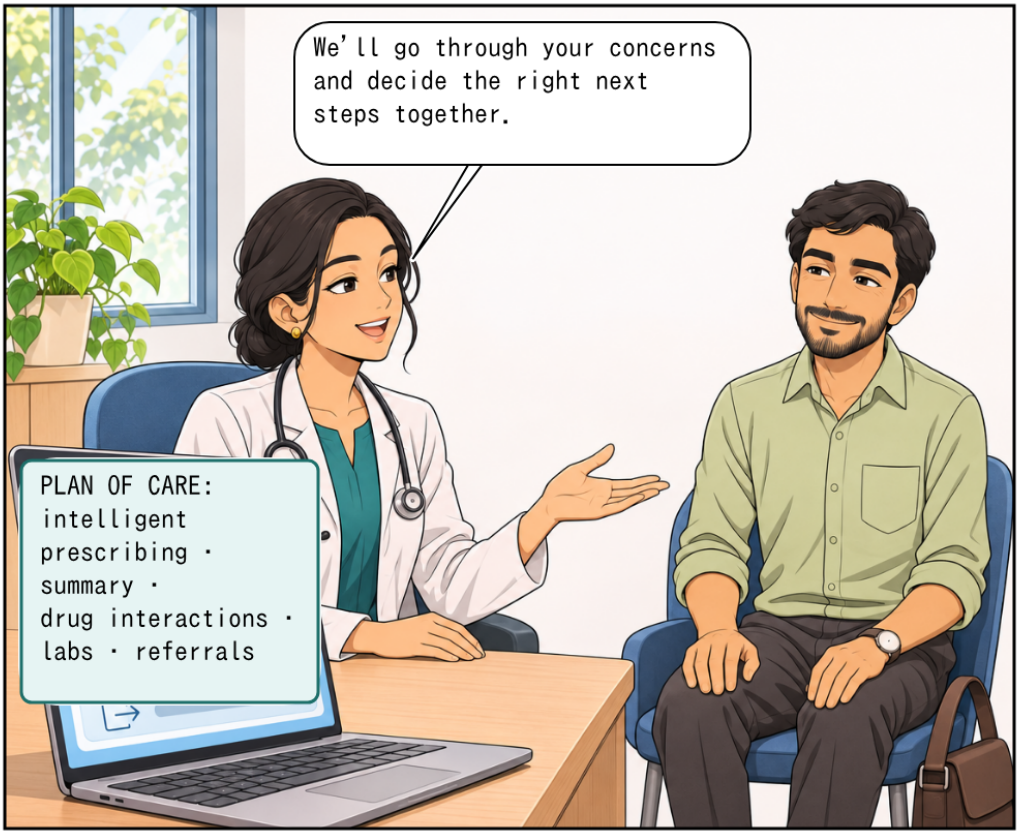
Soon, his slot comes up.
NOW · A-12
A quick vitals check first.
Hi, Ravi! Just relax your arm for me.
Dr. Ananya is notified when he's ready.
RAVI · READY



Hello, Ravi. Tell me what brings you in.
PATIENT DETAILS: current vitals · prior health info · allergy panel · AI mic option · patient docs · lab reports
May the AI listen and save notes of our talk?
Yes, I agree.
AI VOICE CONSENT: asked at the first visit, before any voice is saved
I've been feeling tired lately.
SOAP NOTES: fill in manually and choose ICD or SNOMED codes, or let AI listen and summarise the conversation
Technology supports the workflow. The conversation stays human.

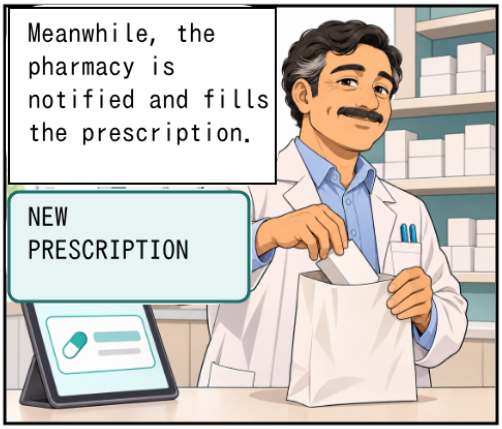


SPECIALITY-SPECIFIC TREATMENT PLANNER
Dentist: odontogram
Eye doctor: eye markers
Paediatrician: growth scales · vaccines

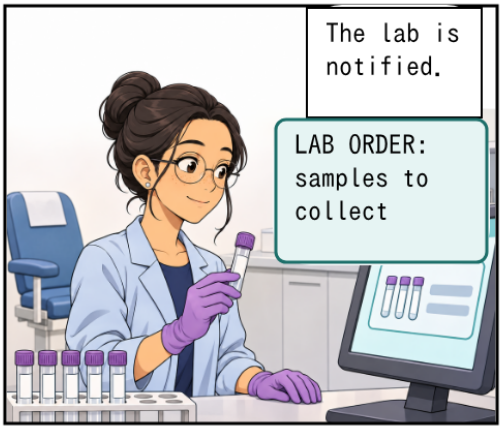


We'll go through your concerns and decide the right next steps together.
PLAN OF CARE: intelligent prescribing · summary · drug interactions · labs · referrals

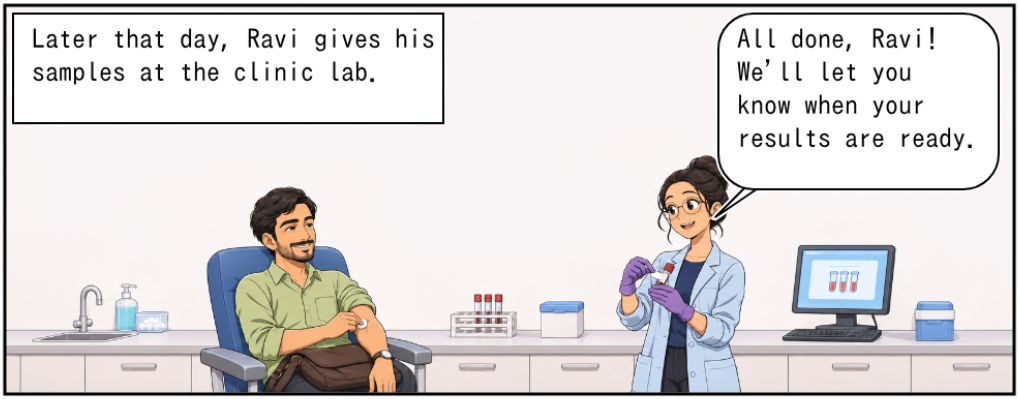
Welbuk Health is designed to help patients stay connected with their care.
So I can keep useful information in one place?
WELBUK HEALTH for patients
That's the idea. Let's walk through what is available to you.
A smoother visit. A more connected experience.



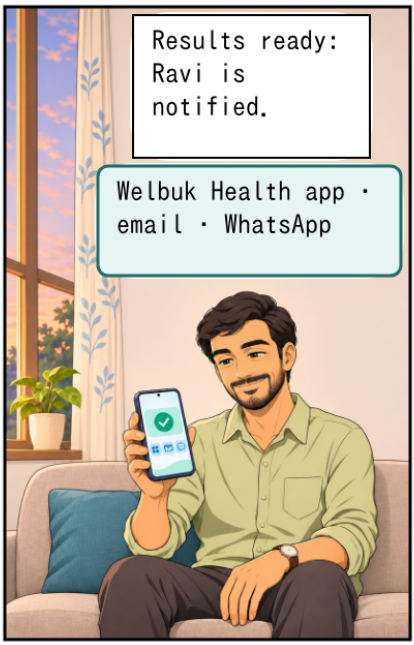
Meanwhile, the pharmacy is notified and fills the prescription.
NEW PRESCRIPTION



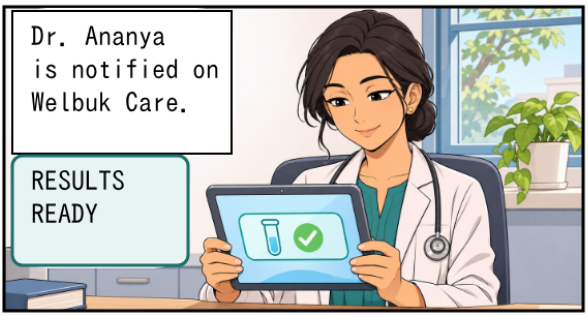
The lab is notified.
LAB ORDER: samples to collect



Later that day, Ravi gives his samples at the clinic lab.
All done, Ravi! We'll let you know when your results are ready.



Results ready: Ravi is notified.
Welbuk Health app · email · WhatsApp

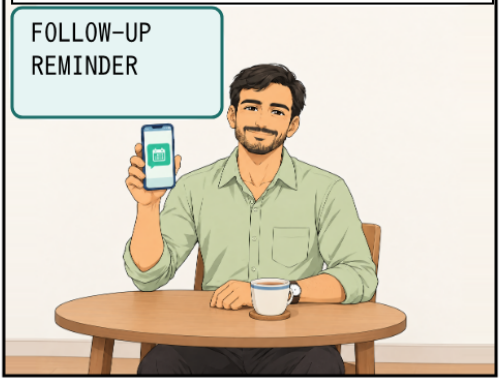


Dr. Ananya is notified on Welbuk Care.
RESULTS READY

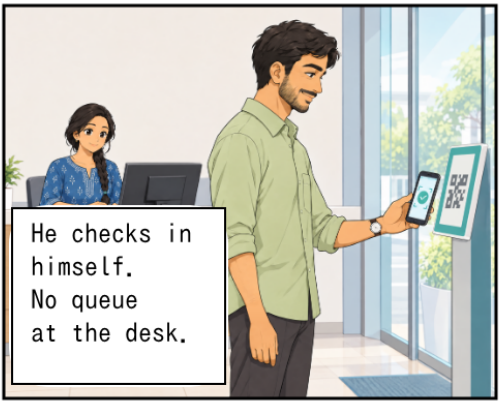
The clinic is notified on Welbuk Practice.
RESULTS READY

Welbuk Practice sends Ravi's follow-up reminder on WhatsApp. No calls from the front desk.

FOLLOW-UP REMINDER

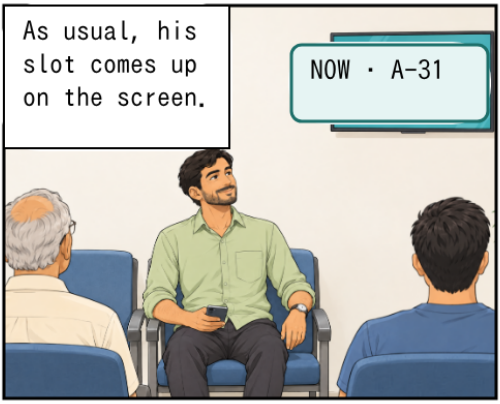


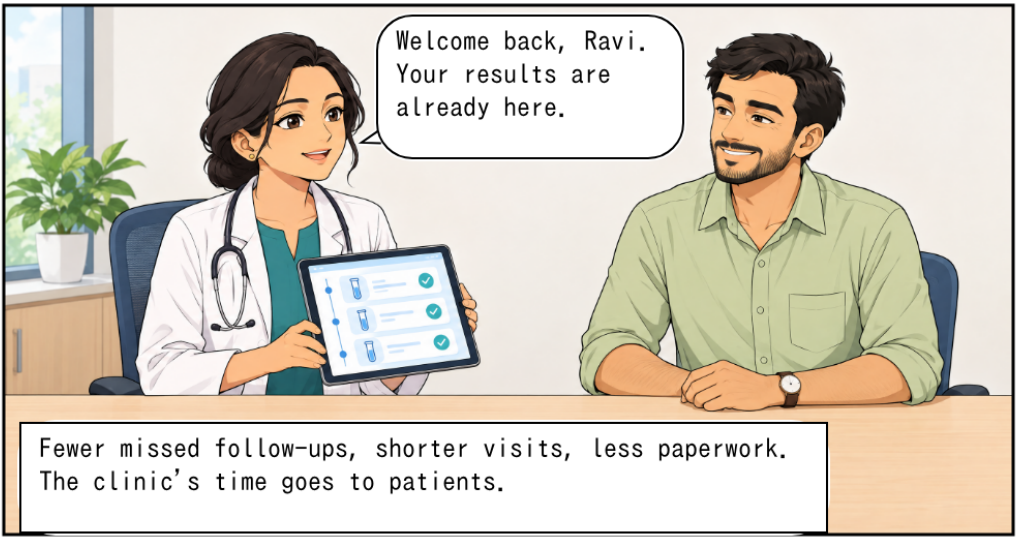
On the day, Ravi arrives empty-handed. No files to find, no reports to re-enter: Welbuk already has them.



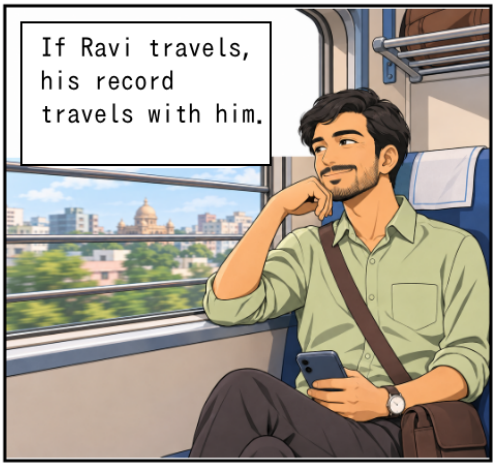
He checks in himself. No queue at the desk.

As usual, his slot comes up on the screen.

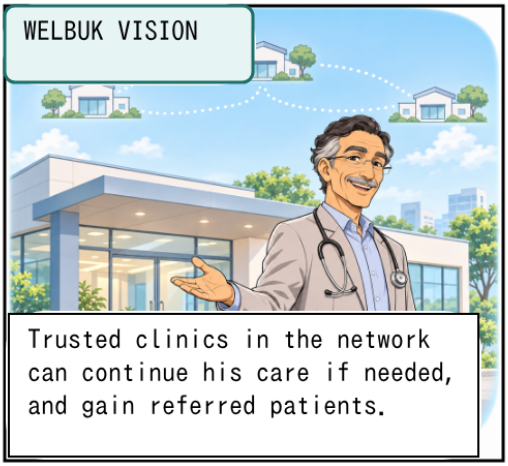




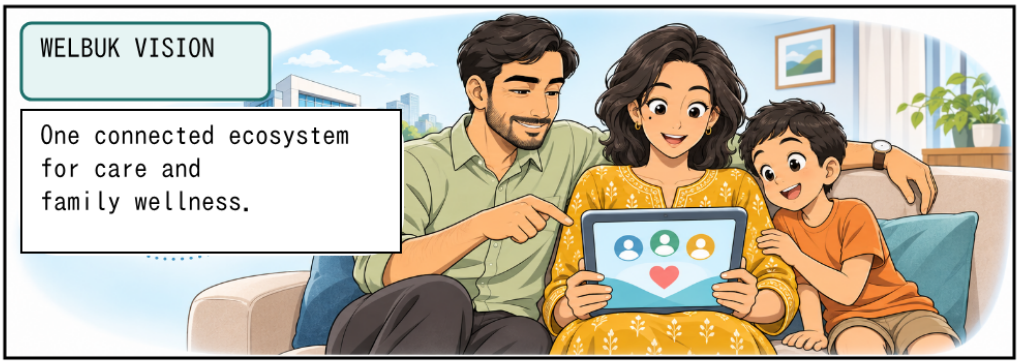
Fewer missed follow-ups, shorter visits, less paperwork. The clinic's time goes to patients.



If Ravi travels, his record travels with him.



WELBUK VISION
Trusted clinics in the network can continue his care if needed, and gain referred patients.



WELBUK VISION
One connected ecosystem for care and family wellness.
